

## Anti-condensation heaters

A variety of heaters for the thermo-regulation of electrical cabinets, connectable by cable or terminal block, with DIN rail fastening. The ventilated version enhances the heating power up to a thermal capacity of 400W.

\* The above values of heating power and temperature were obtained at 230 Va.c. 50Hz, at 12 Vd.c. for the model RAC-40-12V and at ambient temperature condition of 15±5°C after a working of 10 minutes. These values have an uncertainty of 10%.

\*\* Temperatures have been obtained after a working of 10 minutes at ambient temperature condition of 23.5°C.

\* The values of heating power, absorbed current, were obtained at 230 Va.c. 50Hz and at ambient temperature condition of 20±5°C after a working of 45 minutes. These values have an uncertainty of 10%.

\*\* Temperatures have been obtained after a working of 45 minutes at ambient temperature condition of 45±2°C.
